

eLearning made easy at NFIB

The National Federation of Independent Business announced an agreement with eLearning service provider Vubiz to bring engaging, relevant educational content to its members.

Effective today, NFIB members can access the Education and Training Center at www.NFIB.com/onlinecourses and register for programs that range from regulated compliance training, customer service, sales and marketing, personal or management skills and much more.

"We are pleased to introduce the world of online training to our members," said Mark Garzone, NFIB's senior vice president, marketing. "Not only does training over the Internet offer the flexibility of accessing training anywhere at any time, it is also a much more cost-effective way to help small business owners to own, operate and grow their business."

"Vubiz is delighted to be working with NFIB to bring large-scale, corporate-level learning to the members of NFIB" said Jim Rapino, president and CEO of Vubiz. "We believe NFIB members will quickly see the return on investment for online training"
